Please find below and/or attached an Office communication concerning this application or proceeding.

Unacceptable Appeal Brief

The Brief, filed on October 27, 2004, contains claims, namely claims 44, 45 and 66, that were submitted along with the rest of the claims as claims on Appeal (See Appendix). However, **claim 66 was restricted in the last Office Action for disclosing a different invention (restriction issued for more than two months) and claims 44 and 45 have been objected to.** A restriction requirement and claim objections do not fall under Appealable matter. In other words, the arguments as to whether or not claim 66 discloses a different invention and the objection to claims 44 and 45 is proper do not constitute an **Appealable matter**; they fall rather under **Petitionable matter** (See MPEP 1201, 37 CFR 1.144 and 1.181). Therefore, the Brief is deemed **Defective or Unacceptable**. Applicant is required to withdraw claim 66 and remove therefrom any associated remarks along with the arguments related to claims 44 and 45 before an Examiner's Answer can be issued. A short statutory period (30 days or a month) is herein being given to respond to this correspondence.
